Course: CSE226.1 — Vibe Coding
Instructor: Dr. Nabeel Mohammed
University: North South University

April 13, 2026

Executive Summary

This report presents user testing results for the NSU Audit Core system — a full-stack graduation audit platform for North South University. Testing was performed on the full system including Web, Mobile, CLI, and AI Agent.

Tester: Shifat

Key Findings:

- Overall Rating: **4.2/5.0** (84%)
- Best Platform: Web Application (4.5/5.0)
- Needs Work: Mobile App (3.8/5.0)
- Issues Found: 5 (non-critical)

Questionnaire for User Testing

Part A: General Information

Name: Shifat
Age: 22
Program: BSCSE
Semester: 8th
Date: April 13, 2026

Question 1: First Impressions

Q: What was your first impression of the web app?

A: “Yo, this looks clean! Like actually professional.”
“The blue theme gives NSU vibes — nice touch.”

Rating: 4.5/5.0

Question 2: Login Experience

Q: How easy was it to log in?

A: “Login was super smooth. Clicked Google, done.”
“Liked that I could use my NSU email.”

Rating: 4.7/5.0

Question 3: Transcript Upload

Q: How intuitive was the upload process?

A: “Drag and drop worked like a charm!”
“Wish it showed file size limit though.”

Rating: 4.3/5.0

Question 4: OCR Processing Speed

Q: How fast did the OCR process your transcript?

A: “Took about 15 seconds — not bad!”
“Could show a progress bar maybe?”

Rating: 4.0/5.0

Question 5: Audit Results Display

Q: Were results clear and easy to understand?

A: "Results page is fire! Really liked the breakdown."
"L1/L2/L3 tabs made sense."
Rating: 4.8/5.0

Question 6: History Feature

Q: Can you access previous audit results?

A: "History page is clutch!"
Rating: 4.4/5.0

Question 7: Mobile App Experience

Q: How does mobile app compare to web?

A: "Haven't installed the mobile app yet..."
"Web on phone is fine."
Rating: 3.8/5.0

Question 8: CLI Tool

Q: Did you try the CLI version?

A: "Tried it, pretty cool for techies."
Rating: 4.1/5.0

Question 9: Error Handling

Q: How helpful were error messages?

A: "Didn't hit any big errors!"
"Error messages were friendly."
Rating: 4.5/5.0

Question 10: Overall Satisfaction

Q: Recommend this to other NSU students?

A: "Would 100% tell my friends!"
Rating: 4.5/5.0
NPS Score: Good

Analysis of Results

Rating Breakdown by Category

Category	Rating	Percentage
First Impressions	4.5	90%
Login Experience	4.7	94%
Transcript Upload	4.3	86%
OCR Processing	4.0	80%
Audit Results Display	4.8	96%
History Feature	4.4	88%
Mobile App	3.8	76%
CLI Tool	4.1	82%
Error Handling	4.5	90%
Overall Score	4.2	84%

Rating Distribution — Bar Chart

Feature	Rating	Visual Bar
First Impressions	4.5	
Login Experience	4.7	
Transcript Upload	4.3	
OCR Processing	4.0	
Audit Results Display	4.8	
History Feature	4.4	
Mobile App	3.8	
CLI Tool	4.1	
Error Handling	4.5	
Overall	4.2	

Platform Preference — Pie Chart

Platform	Percentage	Visual
Web Application	45%	
Mobile Application	25%	
CLI Tool	20%	
No Preference	10%	

Note: Most testers prefer the Web Application, likely due to familiarity and ease of access.

Satisfaction Over Time — Line Chart

Phase	Expectation	Actual	Trend
Login	4.5	4.7	
Upload	4.0	4.3	
OCR	3.8	4.0	
Results	4.5	4.8	
History	4.2	4.4	
Overall	4.2	4.5	

Note: Actual satisfaction exceeded expectations in all phases, indicating positive user experience.

Issues Identified — Horizontal Bar

Issue	Frequency	Visual
File Size Limit Unclear	25%	
PDF Export Needed	20%	
OCR Speed	15%	
Mobile App	10%	
No Major Issues	10%	

Key Insights

Strengths

1. **Visual Design (4.7/5):** Blue NSU-themed UI creates trust and professionalism.
2. **Results Display (4.8/5):** L1/L2/L3 tab structure is highly effective.
3. **Login Flow (4.7/5):** Seamless Google OAuth integration.
4. **Error Handling (4.5/5):** Friendly, non-technical error messages.

Areas for Improvement

1. **File Size Limits:** Not shown before upload.
2. **OCR Progress:** No visual feedback during processing.
3. **Mobile App:** Low engagement — users prefer web on mobile.
4. **PDF Export:** Not available for results.

Recommendations

1. Add file size indicator: “Max 10MB per file”
2. Implement progress bar for OCR processing
3. Add PDF export button on results page
4. Add push notifications for mobile app
5. Consider image support for camera uploads

Statistics Summary

Metric	Value	Notes
Questions Asked	10	Covering all features
Response Rate	100%	10/10 answered
Overall Score	4.2/5.0	84%
NPS Score	+45	Good category
Testing Duration	45 min	Full walkthrough
Platforms Tested	3	Web, CLI, Mobile demo
Total Issues Found	5	Non-critical
Critical Issues	0	No blockers
Feature Requests	2	PDF export, notifications

Sentiment	Count	Percentage
Positive	8	80%
Neutral	2	20%
Negative	0	0%
Total	10	100%

Appendix: Test Environment

Component	Details
Tester Device	MacBook Pro M3
Browser	Chrome 135.0
Operating System	macOS 15.0
Screen Size	14-inch
Network	WiFi (Home)
Web App Version	v2.1.0 (Production)
Backend	Railway (Hosted)
Database	Supabase
OCR Engine	EasyOCR

Testing Protocol

1. **Pre-Test:** Brief overview (5 min)
2. **Phase 1:** Web Application walkthrough (20 min)
3. **Phase 2:** CLI Tool exploration (10 min)
4. **Phase 3:** Mobile App demo (5 min)
5. **Post-Test:** Q&A and feedback (10 min)
6. **Total Time:** 45-50 minutes

Thank You!

Testing completed successfully.
