

MASHRAFEE — 30-DAY MEDICAL TRANSFORMATION PLAN

Age: 24 | Height: 5'4" | Weight: 85 kg | BMI: 32.2 (Obese)

Conditions: Fatty Liver · Pre-Diabetic · High Cholesterol · High Uric Acid · Vit D Deficient

RED = Exercise

GREEN = Food & Diet

PURPLE = Daily Habits

YELLOW = Score & Notes

YOUR PERSONAL MEDICAL RULES — READ BEFORE DAY 1

LIVER	ALT is 3.6x above normal. Zero alcohol, zero fried food, zero processed food — forever during this plan. If you feel right-side upper belly pain, stop exercise and see doctor immediately.
PRE-DIABETES	Your 2hr sugar is 10.78 — impaired. NO sugar drinks, no fruit juice, no mishti, no biscuits, no white bread. Eat every 4–5 hrs — do NOT skip meals. This is reversible with this plan.
CHOLESTEROL	Total cholesterol 271. Max 2 whole eggs/day — prefer egg whites. No organ meat (liver, kidney, brain). No red meat. Fish and chicken breast only. Use mustard oil or olive oil, very little.
URIC ACID	Uric acid 8.6 (limit 7.2). Drink your 4L water EVERY day — this is non-negotiable. Avoid: hilsa fish, prawn, red meat, dal in large amounts. If any joint becomes hot/swollen, see doctor.
VITAMIN D	Your level is 7.57 — dangerously low. See your Medicine Specialist BEFORE starting Day 1 and get Vitamin D supplements prescribed. Take supplement daily throughout this plan.
EXERCISE LIMIT	You said you can go extreme — good. But your joints carry 85 kg. No jumping exercises in Week 1. Build up properly. Knee pain = stop immediately. Extreme means maximum reps, not ignoring pain.

DAILY SUPPLEMENT SCHEDULE (confirm doses with your doctor)

Supplement	Dose	When	Why/Duration
Vitamin D3	As prescribed (likely 50,000 IU weekly or daily dose)	With breakfast	ALL 30 days
Omega-3 Fish Oil	1000–2000 mg/day	With lunch	Lowers cholesterol + liver
Magnesium Glycinate	200–400 mg/day	Before bed	Sleep quality + insulin sensitivity
Probiotics	1 capsule/day	Morning empty stomach	Gut health, liver support

YOUR COMPLETE DAILY DIET PLAN — TAILORED TO YOUR CONDITIONS

Time	What to Eat	Why (Medical Reason)
6:00 AM Wake-up	1 glass warm water + juice of 1 lemon (no sugar) + 1 tsp raw apple cider vinegar (optional — helps insulin sensitivity)	Liver detox, lowers morning blood sugar spike
7:00 AM Breakfast	2 whole eggs + 1 extra egg white (boiled/poached only — NO fry) + 1 slice whole wheat toast OR small sweet potato + Green tea / ginger tea, NO sugar	Protein without excess cholesterol. No fried = liver safe.
10:30 AM Mid-morning	1 small guava OR cucumber slices OR 1 small apple + 1 glass water	Low sugar fruit. Keeps blood sugar stable between meals.
1:00 PM Lunch	3/4 cup lal chaler bhat (red rice) + 1 large serving chicken breast / rohu / katla fish (grilled/steamed/boiled) + 1 cup shak (spinach/data shak/lal shak) with very little oil + 1 small cup masur dal (no ghee) + Salad: cucumber + tomato + raw onion + lemon Eat salad FIRST before rice — slows sugar absorption	Red rice = lower glycemic. Shak = liver cleanse. Fish = good cholesterol.
4:00 PM Snack	1 boiled egg white (no yolk at snack) OR handful of mixed nuts (8–10 almonds + 4 walnuts) + Ginger-turmeric tea, NO sugar	Nuts lower LDL cholesterol. Turmeric = liver anti-inflammatory.
7:30 PM Dinner	1/2 cup lal chaler bhat (HALF — dinner is always lighter) + Karola bhaji (bitter gourd — MUST eat — controls blood sugar naturally) + Chicken / fish (same as lunch, smaller portion) + 1 cup dal Dinner done by 8:30 PM latest — no food after that	Karola = natural blood sugar regulator. Light dinner = liver rests overnight.
Before bed 10:00 PM	1 glass warm water + 1 tsp fenugreek seeds soaked overnight (eat the seeds next morning) + Magnesium supplement (if taking)	Fenugreek lowers fasting sugar. Magnesium = deep sleep = fat burn.

BANNED FOODS — ZERO EXCEPTIONS — ANY OF THESE UNDOES A WHOLE WEEK

✗ Sugar drinks (Coke, Pepsi, juice, energy drinks)	✗ Anything fried (singara, piyaju, pakora, chips, French fries)
✗ Biryani / tehari / polao	✗ Paratha / luchi / naan
✗ Mishti / rasogolla / sandesh / halua	✗ Biscuits / cake / bread (white)

X Red meat / organ meat (beef, mutton, liver, kidney)	X Hilsa / prawn / shrimp (high purine = raises uric acid)
X Full-fat dairy (ghee, butter, full cream milk)	X Alcohol (zero — damages your already inflamed liver)

WEEK 1 — Days 1–7 | Build the habit. Master the form. Your body is adjusting.

■ *Week 1 medical note: No running in Week 1 — your joints need 1 week to adjust to 85 kg load. Walk only. Soreness is normal. Sharp pain = stop.*

HABIT / TASK	Day 1 Mon	Day 2 Tue	Day 3 Wed	Day 4 Thu	Day 5 Fri	Day 6 Sat	Day 7 Sun
HOME WORKOUT — do ALL exercises (40–50 min) — rest 1 day/week							
Squats 4 sets x 20 reps — rest 50 sec — heels flat, chest up, go to 90 deg — REST DAY = skip all exercise	■	■	■	■	■	■	■
Push-ups 4 sets x 10 reps — knee push-up is FINE — rest 50 sec — squeeze chest at top	■	■	■	■	■	■	■
Mountain Climbers 3 sets x 20 each leg — rest 45 sec — controlled pace Week 1	■	■	■	■	■	■	■
Plank 3 sets x 25 sec — rest 40 sec — hips level, glutes squeezed, breathe	■	■	■	■	■	■	■
Wall Sit 3 sets x 30 sec — rest 40 sec — thighs parallel, back flat — NEW: helps knees safely	■	■	■	■	■	■	■
FOOD & DIET — tick ONLY if followed exactly — your liver and sugar depend on this							
Breakfast 7 AM 2 egg + 1 white boiled, whole wheat toast, lemon water, ginger tea no sugar	■	■	■	■	■	■	■
Lunch 1 PM 3/4 cup red rice + fish/chicken + shak + dal + salad — eat salad first	■	■	■	■	■	■	■
Snack 4 PM Egg white OR almonds+walnuts + turmeric-ginger tea, no sugar	■	■	■	■	■	■	■
Dinner 7:30 PM 1/2 cup red rice + KAROLA bhaji + fish/chicken + dal — done by 8:30 PM	■	■	■	■	■	■	■
Zero banned foods No sugar drinks, fried food, biryani, mishti, biscuit, beef, prawn	■	■	■	■	■	■	■
Ate every 4-5 hrs Did NOT skip meals — blood sugar must stay stable all day	■	■	■	■	■	■	■
OTHER DAILY HABITS — every single one matters for your conditions							
45 min brisk walk Fast enough to sweat — every day — this alone moves your cholesterol and sugar	■	■	■	■	■	■	■
Vitamin D supplement Take your prescribed dose — your level is critically low	■	■	■	■	■	■	■
Drank 4 L water For uric acid — morning 1L + afternoon 1.5L + evening 1L + workout 500ml	■	■	■	■	■	■	■
Slept 7+ hrs (by 11 PM) Fat burn, insulin repair, liver detox all happen during sleep	■	■	■	■	■	■	■
No food after 8:30 PM Fasting window = liver rests and fat burns overnight	■	■	■	■	■	■	■
Daily Score (out of 16)	/16	/16	/16	/16	/16	/16	/16

Week 1 Total: _____ / 112 boxes ticked

Weight: _____ kg

Waist: _____ cm

Energy (1-10): _____

WEEK 2 — Days 8–14 | More reps. Add running. Your liver enzymes will start improving.

■ Week 2: Running starts now. Go slow — pace where you can still speak. Knee pain = go back to walk only. Blood sugar drops significantly this week.

HABIT / TASK	Day 8 Mon	Day 9 Tue	Day 10 Wed	Day 11 Thu	Day 12 Fri	Day 13 Sat	Day 14 Sun
HOME WORKOUT — do ALL exercises (40–50 min) — rest 1 day/week							
Squats 4 sets x 30 reps — rest 45 sec — add speed on the way up, slow on the way down	■	■	■	■	■	■	■
Push-ups 4 sets x 18 reps — rest 40 sec — try full push-up, drop to knee if needed	■	■	■	■	■	■	■
Mountain Climbers 3 sets x 30 each leg — rest 40 sec — increase pace	■	■	■	■	■	■	■
Plank 3 sets x 40 sec — rest 35 sec — engage abs fully	■	■	■	■	■	■	■
Wall Sit 3 sets x 45 sec — rest 35 sec — no leaning on thighs	■	■	■	■	■	■	■
20 min Interval Run 1 min jog fast + 1 min walk slow — repeat 7x — starts from Day 8	■	■	■	■	■	■	■
FOOD & DIET — tick ONLY if followed exactly — your liver and sugar depend on this							
Breakfast 7 AM 2 egg + 1 white boiled, whole wheat toast, lemon water, ginger tea no sugar	■	■	■	■	■	■	■
Lunch 1 PM 3/4 cup red rice + fish/chicken + shak + dal + salad — eat salad first	■	■	■	■	■	■	■
Snack 4 PM Egg white OR almonds+walnuts + turmeric-ginger tea, no sugar	■	■	■	■	■	■	■
Dinner 7:30 PM 1/2 cup red rice + KAROLA bhaji + fish/chicken + dal — done by 8:30 PM	■	■	■	■	■	■	■
Zero banned foods No sugar drinks, fried food, biryani, mishti, biscuit, beef, prawn	■	■	■	■	■	■	■

Week 2 Total: _____ / 119 boxes ticked

Weight: _____ kg

Waist: _____ cm

Energy (1-10): _____

WEEK 3 — Days 15–21 | Maximum intensity. Visible results. Do NOT slow down.

■ *Week 3: This is where the transformation becomes visible. Cholesterol and uric acid are responding to the diet by now. Stay extremely strict on food this week.*

HABIT / TASK	Day 15 Mon	Day 16 Tue	Day 17 Wed	Day 18 Thu	Day 19 Fri	Day 20 Sat	Day 21 Sun
HOME WORKOUT — do ALL exercises (40–50 min) — rest 1 day/week							
Squats 5 sets x 35 reps — rest 35 sec — MAXIMUM burn — go fast, go deep	■	■	■	■	■	■	■
Push-ups 5 sets x 20 reps — rest 35 sec — full push-up ONLY from now if possible	■	■	■	■	■	■	■
Mountain Climbers 4 sets x 35 each leg — rest 35 sec — as fast as possible	■	■	■	■	■	■	■
Plank 4 sets x 55 sec — rest 25 sec — add shoulder taps if easy	■	■	■	■	■	■	■
Wall Sit 4 sets x 60 sec — rest 30 sec — hold through the burn	■	■	■	■	■	■	■
Burpees 3 sets x 10 reps — rest 45 sec — extreme calorie burn — skip if knee pain	■	■	■	■	■	■	■
25 min Interval Run 1 min fast sprint + 1 min walk — harder than Week 2 — push pace	■	■	■	■	■	■	■
FOOD & DIET — tick ONLY if followed exactly — your liver and sugar depend on this							
Breakfast 7 AM 2 egg + 1 white boiled, whole wheat toast, lemon water, ginger tea no sugar	■	■	■	■	■	■	■
Lunch 1 PM 3/4 cup red rice + fish/chicken + shak + dal + salad — eat salad first	■	■	■	■	■	■	■
Snack 4 PM Egg white OR almonds+walnuts + turmeric-ginger tea, no sugar	■	■	■	■	■	■	■
Dinner 7:30 PM 1/2 cup red rice + KAROLA bhaji + fish/chicken + dal — done by 8:30 PM	■	■	■	■	■	■	■
Zero banned foods No sugar drinks, fried food, biryani, mishti, biscuit, beef, prawn	■	■	■	■	■	■	■
Ate every 4-5 hrs Did NOT skip meals — blood sugar must stay stable all day	■	■	■	■	■	■	■

Week 3 Total: _____ / 126 boxes ticked

Weight: _____ kg

Waist: _____ cm

Energy (1-10): _____

WEEK 4 — Days 22–30 | BONUS ROUND. Most people quit at Day 20. You are not most people.

■ **Week 4 medical goal:** Re-test ALT, cholesterol, and fasting blood sugar after Day 30. Show your doctor the scores. The numbers on paper should look different.

[illegible]

Week 4 Total: _____ / 162 boxes ticked

Weight: kg

Waist: cm

Energy (1-10):

30-DAY FINAL SUMMARY — Fill in on Day 30 morning

Total boxes ticked:	_____ / 390	Energy level (1–10):	_____
Start weight:	_____ kg	End weight:	_____ kg
Start waist:	_____ cm	End waist:	_____ cm
Weight lost:	_____ kg	Waist lost:	_____ cm

330+ / 390	Visible transformation. Lab results will show improvement. You changed your biology.
250–329 / 390	Solid progress. Weight down, energy up. Repeat the plan for another 30 days.
Below 250	Barely changed. Your lab results will still look the same. Start again from Day 1.

WEEK-BY-WEEK PROGRESS					
Metric	Start	After Week 1	After Week 2	After Week 3	After Day 30
Weight (kg)	85 kg	_____	_____	_____	_____
Waist (cm)	_____	_____	_____	_____	_____
Energy (1-10)	_____	_____	_____	_____	_____
Weekly score	—	___/91	___/91	___/91	___/117
ALT / Cholesterol	164 / 271	—	—	—	Re-test

BLOOD TEST RECHECK ON DAY 31	Go to NILMRC or your doctor. Repeat: ALT/AST, Lipid Profile, Fasting Sugar + 2hr OGTT, Uric Acid, Vitamin D. Compare to your baseline. Show results to your Medicine Specialist.
-------------------------------------	--

REFLECTION — What changed? What was hardest? What will you keep doing permanently?

"Your liver enzymes, your blood sugar, your cholesterol — they are not your fate. They are your current situation. You have 30 days to begin changing them. Start now."
