WHAT HAPPENS NEXT?

Days 31–60:

Keep the same 4 exercises. Add 5 reps per set every 2 weeks. Introduce dumbbells or resistance bands if possible.

Days 61–90:

Waist-to-shoulder ratio will visibly shift. Consider adding a 5th exercise (e.g. burpees or jump squats).

Permanently:

Sleep 7 h, walk daily, drink water. These three habits alone maintain most of the progress.

“The first 20 days build the habit. The next 10 prove it is permanent. Day 31 is where transformation becomes identity.”
